Penetration Tester (Junior) / Ethical Hacker

Dedicated cybersecurity professional skilled in penetration testing, web security, and system protection. Experienced in IT support, resolving technical issues, and assisting users. Proficient in Python and modern tools. Pursuing CompTIA Security+, A+ to enhance expertise in cybersecurity and IT operations.

WORK EXPERIENCE

At The Red Users • Remote • 09/2024 – 09/2024

The Red Users is a leading cybersecurity company dedicated to protecting businesses, organizations, and individuals in today's digital landscape. With a mission to make the internet safer, they offer a broad spectrum of tailored cybersecurity services.

Cyber Security Intern • Internship

- Gained hands-on experience in setting up and configuring **vulnerable virtual environments** for ethical hacking practice.
- Conducted **penetration testing** using simulated vulnerable labs like **Damn Vulnerable Web App (DVWA)** in a **Kali Linux VM** environment.
- Performed **network assessments** on home network setups, identifying security vulnerabilities and documenting findings.
- Developed skills in **writing penetration testing reports** and detailed **write-ups** to communicate findings and solutions effectively.
- Worked with **firewall configurations**, including setting up new rules and reviewing existing protocol rules to enhance security.
- Evaluated and tested **WiFi security**, identifying vulnerabilities, and suggesting improvements for secure wireless networks.
- Enhanced understanding of **cybersecurity best practices**, including threat analysis and vulnerability management.

At Seabak • Baku, Azerbaijan • 06/2023 – 02/2024

Seabak is an IT support and management company that has been serving small and medium-sized businesses since 2002. They specialize in taking complete responsibility for their clients' IT needs, offering daily IT support, strategic advice on IT-related business challenges, and end-to-end IT infrastructure management.
